## **INTRODUCTION**

The following narrative and accompanying tables provide information on the characteristics of the Youth Authority's institution, camp and parole populations as of June 30 of each year, 1996 through 2005. The statistics reflect both CYA cases directly committed to the Youth Authority and Department of Corrections (CDC) cases housed in Youth Authority facilities pursuant to Section 1731.5(c) of the Welfare and Institutions Code. Under this section, which became effective January 1984, youth committed to the Department of Corrections can be ordered by the sentencing courts to be placed in Youth Authority facilities to serve at least part of their sentences.

The characteristics compared include sex, committing court, county of commitment, admission status, ethnicity, average age, and the following categories of primary commitment offense:

<u>Violent Offenses:</u>	Homicide, robbery, all types of assaults, forcible rape, and kidnapping.
<u>Property Offenses:</u>	Burglary, theft (including auto), forgery and check offenses, and arson.
<u>Narcotic and Drug Offenses:</u>	All offenses related to narcotics and dangerous drugs.
<u>Other Offenses:</u>	All offenses not specified above.

Tables are provided for the total population in the camps and for each of the ten regular institutions. Reception Center-Clinics are not identified separately, but are included in the overall totals, Tables 1 through 3.

Please note: Table 7, Karl Holton Youth Correctional Drug and Alcohol Treatment Facility moved wards out gradually until the last wards left on September 25, 2003. Fred C. Nelles Youth Correctional Facility and Mt. Bullion Youth Conservation Camp gradually moved wards out until the end of May 2004. During the spring of 2005, the Washington Ridge and Ben Lomond Youth Conservation Camps also closed. All of the males were moved out of the Ventura Youth Correctional Facility by January 1, 2004. This explains the drastic drop in their populations.

Also, Table 7, El Paso De Robles Youth Correctional Facility averaged 40 contract cases from Monterey County during 2004 that are not included in this report. And, the Southern Reception Center and Clinic averages 25 contract cases from Los Angeles County.

## **SUMMARY**

### **POPULATION**

The institution population of 3,348 in 2005 reflects a *decrease* of 18 percent from the 2004 population of 4,067. This continues the downward trend beginning in 1997. Since the high of 10,122 in 1996, the institution population has decreased 67 percent.

The parole population of 3,721 in 2005 is 10 percent lower than in 2004, and 42 percent lower than its high in 1997.

### **SEX**

Over the ten-year period, female offenders have been 3 to 5 percent of the institution population. Females have been 4 to 6 percent of the parole population until 2003 when the population increased to 7 percent. The percentage of females in the parole population rose to almost 8 percent for 2005.

### **COURT OF COMMITMENT**

Since 1996, the percentage of juvenile court commitments in the Youth Authority population has *increased* considerably -- from 78 percent in 1994 to 97 percent in 2003 and 2004. On June 30, 2005, the percentage was 96.

Similarly, the percentage of juvenile court commitments on parole has steadily *increased* from 78 percent in 1996 to almost 98 percent in 2005.

### **COUNTY OF COMMITMENT**

The largest proportion of the Youth Authority's institution population has consistently been from Southern California (especially Los Angeles County), until last year when the proportion has decreased from 6 percent in 1996 to 48 percent. Los Angeles County commitments have decreased from 34 percent to 25 percent during that same time period. In 2005, that trend has continued with 47 percent from Southern California, which includes 22 percent from Los Angeles County.

The difference between the major sections of the State has been less marked for the parole population. In 2005, the comparison is 51 percent for Southern California, and 49 percent for Northern California.

### **PRIMARY COMMITMENT OFFENSE**

The proportion of offenders institutionalized **primarily** for homicide, robbery, and other violent offenses steadily decreased from a high of 65 percent in 1996 to 59 percent by 2004. By June 30, 2005, that percentage had risen back to 62 percent. The proportion of offenders on parole for violent offenses has steadily *increased* from 62 percent in 1996 to 70 percent in 2002. In 2005, the percentage remains at 70.

Those offenders institutionalized **primarily** for property offenses (burglary, theft, and arson) gradually increased from 23 percent in 1996 to 25 percent in 2002. By 2005, the percentage decreased back to 20. The proportion of property offenders on parole has *decreased* from 26 to 20 percent.

The proportion of the institution population committed **primarily** for narcotic and drug offenses *decreased* from 6 percent in 1996 to 3 percent in 2005. Those on parole who had been committed

**primarily** for narcotic and drug offenses *decreased* from 7 percent in 1996 to 3 percent in 2002. It remains at 3 percent for 2005.

### **ADMISSION STATUS**

The proportion of first commitments in the institution population has fluctuated between 82 and 85 percent.

The proportion of first-time parolees in the parole population was 77 percent in 1996, and is currently 73 percent.

### **ETHNIC GROUP**

The percentage of Whites in the institutions in 2005 is 15 percent, the same as at the start of the decade. The percentage of African Americans in the institutions dropped, from 32 percent in 1994 to a low of 28 percent in 1999. In 2005, the percentage was 30 percent. There has been more of an upward trend in the proportion of Hispanics, from 46 percent in 1996 to a high of 50 percent in 2004. In 2005, that percentage is 49. The percentage of Asians has decreased from 6 percent in 1996 to less than 4 percent in 2005.

The proportion of Whites in the parole population dropped from 16 percent in 1996 to under 15 percent in 2005, and African Americans from 29 percent in 1996 to 25 percent in 2005. The proportion of Hispanics *increased* from 46 percent in 1996 to over 51 percent in 2005. The Asian parole population has flucuated between 6 and 7 percent throughout the decade. It is currently 6 percent.

### **AVERAGE AGE**

Over the past ten years, 19 years has consistently been the average age of the institution population. The average age of the parole population has been approximately 21 years during the same time period. Although, both have been incrementally increasing.
